

Ferretti 800 – 2016

| Refit 2024

Flybridge *Motor*

Yacht 24m

| Asking Price : €2,750,000 ex-VAT

■ General Presentation

This Ferretti 800 Flybridge Motor Yacht, built in 2016 and partially refitted in 2024, is a rare opportunity on the luxury yacht market. With her 24.73 meters length, French commercial flag (RIF), and an asking price of €2,750,000 ex-VAT, she combines performance, comfort, and strong charter potential.

■ Interior Layout

The interior spaces of the Ferretti 800 reflect all the refinement and craftsmanship of Italian design.

Designed to accommodate up to eight guests overnight in absolute comfort, the yacht offers four elegant cabins: a sumptuous full-beam Master suite, a spacious VIP cabin, and two guest cabins, each with its own private bathroom.

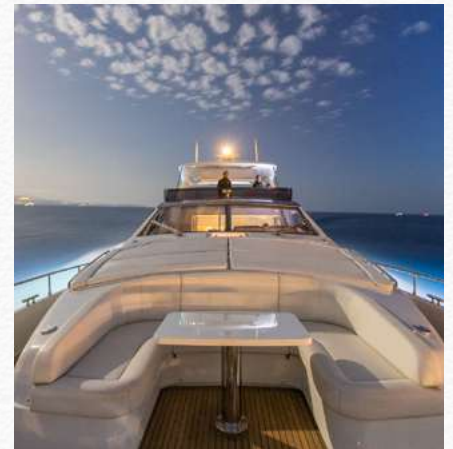

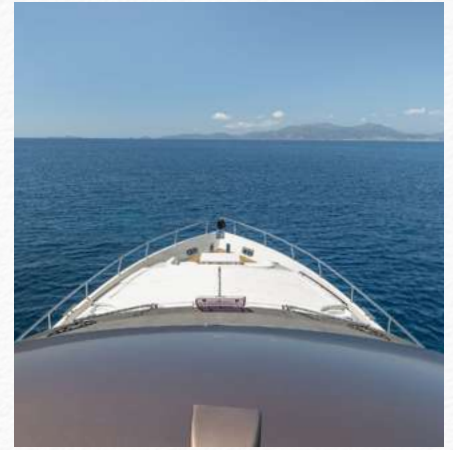

The panoramic main saloon opens onto large windows that flood the space with natural light

and offer breathtaking sea views. Its generous volumes allow family and friends to gather in a chic yet relaxed atmosphere, perfect for sharing memorable moments on board.

The walnut satin woodwork, leather upholstery, and subtly integrated lighting create a warm and contemporary ambiance throughout.

An independent crew area for up to three crew members ensures discreet service and guarantees total privacy for guests.

■ Exterior spaces

The Ferretti 800 impresses with its spacious and perfectly balanced outdoor areas, designed for those who truly appreciate life at sea.

The flybridge features a large sunbathing area, a bar with grill, and a shaded lounge beneath the

retractable hard top — the perfect setting for open-air lunches or relaxed evenings under the stars. Aft, the welcoming cockpit provides a comfortable space for dining and relaxation, while the foredeck offers a generous sunpad with sunshade, ideal for moments of pure tranquility.

The new exterior upholstery (2024, Sunbrella Horizon), teak decking, and ten underwater lights highlight the yacht's timeless elegance and contemporary character.

■ Engine Room

Impeccably maintained engine room, equipped with 2 MTU 12V 2000 M96L engines of 1,948 hp each, with a complete service history and a Seakeeper replaced with a brand-new unit in 2025. Easy access for maintenance and a spotless presentation.

Maintenance & Warranty

This Ferretti 800 has benefited from meticulous maintenance, carried out exclusively by authorized professionals. All service invoices and complete maintenance records are available, reflecting the yacht's careful and consistent upkeep since her acquisition. Every intervention — mechanical, electronic, or cosmetic — has been performed to Ferretti shipyard standards,

ensuring an exceptional overall condition and optimal reliability. Another major highlight: this yacht comes with an official MTU engine warranty extension valid until November 2027, offering her future owner total peace of mind and a rare added value on today's market.

■ Toys and Tender

Capelli 410 Luxe tender + Yamaha 50 hp (197 h) | Jet Ski Spark Trixx 90 hp (100 h) | 2 x Seabobs F5S, 1 Fliteboard, 2 paddleboards | Wakeboard, waterskis, JOBE towable.
